WHAT IS
THE SOCIETY OF
WOMEN ENGINEERS?

Founded in 1950, and incorporated in 1952, the Society of Women Engineers, or SWE, is headquartered in Chicago, Illinois. SWE is the largest non-profit educational and service organization representing both student and professional women in engineering and technical fields, with over 17,000 members in 90 sections and 300 student sections.

BEYOND OUTREACH AND SUPPORT FOR WOMEN ENGINEERS,

the Eastern Nebraska Professional Section of the Society of Women Engineers promotes awareness in the community and provides opportunities for youth to explore engineering.

WHAT WE DO

In order to encourage young women across the country to become involved with engineering and technology, the Society of Women Engineers (SWE) launched a program called “WOW! That's Engineering!” For a third year, the Eastern Nebraska Section of SWE is hosting this outreach program in the Omaha area. The demand for engineering and technology professionals is growing three times faster than any other occupation, yet the enrollment in colleges of engineering is declining - particularly among females! We need to encourage young women to consider the possibilities a career in engineering and technology has to offer.

This program offers four sessions that give a glimpse into the world of engineering.

BE A PART OF WOW!

1. Experience the creativity and innovation of engineering and science.
2. Meet women engineers and technologists and hear first hand about these exciting careers.
3. Learn what engineering and technology have to offer YOU!

STUDENTS WILL EXPERIENCE

- Mechanical Engineering
- Chemical Engineering
- Systems and Civil Engineering
- And much more....

PARENTS may register to attend the parent track (morning only).
